

WELCOME TO OUR ALFA SHOP
Dick & Trish Albritton-Owners
Ronnie Wolfe-Technician

Thank you for bringing your Alfa Motor Home to us and also for the confidence you place in us to do the work you desire to have done.

Information on questions you may have is listed below.

HOW LONG WILL THE WORK TAKE?

In most cases one to two days. Floor jobs take 2 days to a week depending on the type of floor; carpet or hard floors.

WHAT ARE THE WORK HOURS?

Generally we like to get started as early as 7:00 A.M. and will work straight through until we finish or as late as 6:00 P.M.

DO WE NEED TO GET A MOTEL ROOM?

For all work except floors you will be able to stay in your coach at night. Floor jobs may require you leave your coach from 1 to several days.

DO WE STAY IN THE COACH WHILE THE WORK IS BEING DONE?

No, In order for us to get your work done as efficiently and effectively as possible, we ask that you vacate the coach while work is being done.

IS THERE A PLACE WE CAN GO TO WAIT WHILE THE WORK IS BEING DONE?

Yes, our guest building (the bunk house) is available.

WORK TO BE DONE:

A document (Alfa Motor Home Repairs-Mods-Kits) is attached. Please look over this list and check the items that you would like to have done. We will need this list before starting the work on your coach.

FOR SCHEDULING AND OTHER QUESTIONS; CALL OR EMAIL RONNIE.

1. **SEALING FOR AIR INFILTRATION** -- Test and seal entire coach for air leaks to make it more comfortable and easier to heat and cool while traveling. Seal storage areas to reduce dust and prevent water from entering those areas while traveling.

Pre 05'S and some early 05's (all coaches with gas furnace at the rear) - \$650.

05's with gas furnace at mid coach - \$550.

06's - \$450.

07's - \$300

2. **ELECTRICAL KIT FOR A/C # 2 ALTERNATE POWER** -- This kit allows power to be fed directly to A/C # 2 from a 15 amp. outlet even if it is a GFI while the rest of the coach is powered from the main power supply. This is helpful when the main power supply is less than 50 amp.

Kit Only - \$80 (shipping included)

Installed - \$100.

3. **MICROWAVE EXHAUST VENT DOOR OPERATOR** -- This is a manual operator which allows the vent door to be opened and closed from the inside of the coach. It is self locking so locking the door from the outside is no longer required.

Kit Only - \$50 (shipping included)

Installed _ \$75.

4. **INSULATE ENTRY DOOR** --The interior of the door is completely filled with insulation to make it quieter and to eliminate the hot or cold feeling from it.

All Coaches - \$75.

5. **GUEST OSCILATING MARINE FAN** -- A very adjustable 12 volt single speed oscillating fan generally installed in the bed room but can be installed in other areas as desired.
Installed - \$125.

6. **ROOFTOP AIR CONDITIONER** -- A 13,500 Btu low profile roof top A/C unit installed generally in the front of the coach between the 2 front fluorescent lights.
Dometic Penguin low profile with wall thermostat - \$1700.
Same unit as above with strip heat. - \$1800
7. **SOAP DISPENSERS** -- Pump type soap dispensers installed at the kitchen sink and at the bath vanity.
Vanity - \$40.
Kitchen Sink - \$60.

8. **FRONT CAP LOWER EDGE TRIM** -- A white edge trim installed to give the edge a finished look as well as to protect it from small scrapes.
Material Only - \$15 plus shipping
Installed - \$30

9. **PRO-FILL BATTERY WATERING SYSTEM** – System is for 6 (6 volt) batteries with 2 watering stations. Makes maintaining batteries a 2 minute job.
Kit Only - \$175 plus shipping.
Installed - \$200.

10. **WINDSHIELD GUTTER** – Guttering system installed over top of windshield to help eliminate windshield streaking from rain and dew.
Installed - \$50.

11. **RAIN GUTTER EXTENSIONS** – Six gutter extensions installed to help reduce black streaking down the side of the coach.
Installed - \$30.

12. **FUEL GUARD** – A protector that installs and stores on the fuel filler tube that protects the side of the coach from fuel spills while filling. For pre 06 models.
Installed - \$20.

13. **AWNING CENTER SUPPORT** - Supports the center of the awning when retracted to keep it from bending.
Installed - \$60.

14. **LED Tail/Turn Signal Lights** –
Three section units Installed - \$350

15. Audible alarm for turn signals. – Buzzer wired into your turn signals to alert you that the signals are on.

Installed - \$50

16. Slide Motor Conversions to Center Drive. - Remove end drive motor and convert system to center drive Klauber motor system.

Total Parts and Labor - \$1000

17. Front TV Conversion to LCD. - Labor and material to remove the front TV and install owner furnished 32" LCD TV.

03's & early 04's with RCA TV - \$1000

Late 04's thru 07's - \$600

18. Slide seal replacement. – Labor and material to replace the slide out seals with black P-mold seals.

2 Slides - \$1000

3 Slides - \$1400

19. Carpet and Pad replacement. You get the carpet and pad of your choice and we provide the labor and installation material.

All coaches without carpet in steps - \$1000

For Carpet in steps Add \$100

Note: Above prices do not include carpeting rear tip outs or edge binding if needed.

Full Body slide floor plans – Prices vary depending on # of slides and edge binding required but ranges from \$1500 to \$2000.

20. REFRIGERATOR CHANGE OUT – Remove existing, gas/electric ref. and install owner furnished residential electric refrigerator. - \$600

21. CHANGE OUT HEADLIGHTS TO PROJECTOR STYLE

Total – Labor & Lights. \$350

22. CHANGE OUT STOCK TAIL LIGHTS TO NEW MODERN LED UNIT.

Total – Labor & Lights \$300

23. Change clearance lighting to clear LED unit.

Total – Lights and labor - \$25 per light.

24. Change clearance, turn light above rear wheel to clear LED unit.

Total – Lights and labor - \$50 per light.

25. Add clear LED clearance turn light above front wheel.

Total – Lights, Labor - \$100 per light.

26. **MISCELLANEOUS REPAIRS AND SERVICES** – Slide motors, electrical problems, a/c repairs, generator service and repairs, battery replacement, etc.
Non warranty items will be billed at \$85 per hour plus parts and materials.

OUR LOCATION AND DIRECTIONS:

We are located in north Louisiana just off of I-20 just 20 miles west of Monroe and 75 miles east of Shreveport, Louisiana.

On I-20 take exit 93 which is between Ruston and Monroe and go south on Hwy 145 for 3.4 miles to our drive on the right side of the road. The number (5048) is on the mail box and is immediately after #4990 so go slow or you will pass it up.

We have hookups with 50 amp electrical and water and sewer for your stay here.
