

WELCOME TO THE HOME AND SHOP  
OF  
DICK & TRISH ALBRITTON

Trish and I want to welcome you to our home and shop facility. Thank you for bringing your Alfa Motor Home to us and also for the confidence you place in us to do the work you desire to have done.

We know that you have questions about how we will go about getting your work done and so by way of this document we hope to answer most of them. The following are questions and answers to most of the questions we think you may have. If this does not answer all of your concerns, please ask.

HOW LONG WILL THE WORK TAKE?

In most cases we will get all of your work done in one day. If you have a very large amount to be done, we may take a day and a half to finish. In any case we will finish your work before we start on the next job.

WHAT ARE THE WORK HOURS?

This will vary depending on the time of year and the weather. Generally we like to get started as early as 7:00 A.M. and will work straight through until we finish or as late as 6:00 P.M. Winter hours are generally a little shorter due to the shorter days while summer hours may go a little longer due to daylight savings time and the longer days.

DO WE NEED TO GET A MOTEL ROOM?

No, you will not need a motel room. You will be able to stay in your coach at night. We have hook ups with 50 amp electrical and water. A dump is available if needed on the North side of the Bunk House.

DO WE STAY IN THE COACH WHILE THE WORK IS BEING DONE?

In order for us to get your work done as efficiently and effectively as possible, we ask that you vacate the coach while work is being done.

## IS THERE A PLACE WE CAN GO TO WAIT WHILE THE WORK IS BEING DONE?

There is a guest building (the bunk house) with TV and laundry you may relax in while the work is being done on your coach. We have a Wi-Fi and you are welcome to use it for your internet needs.

There are several things of interest in the area that you may want to go see. Ruston is home of Louisiana Tech University and Grambling State University is located in Grambling just 5 miles west of Ruston. Lincoln Parish Park is our favorite place in the area to go for outdoor exercise and relaxation. It is located approximately 2.5 miles north of I-20 on La Hwy 33.

For more information visit the Lincoln Parish website: [www.rustonlincoln.com](http://www.rustonlincoln.com).

## IS THERE ANYTHING I CAN DO TO HELP?

All of the work we do is a one person job and there is no benefit to having someone try to help with it. The job goes faster and better if we are left alone to complete our work without distraction.

If we will be doing the sealing work on your coach the following are a few things you can do that will help us get the work going.

1. Unlock all of the compartments including the generator and engine hatches.
2. Empty the lower shelf of the roadside pantry.
3. Remove items to allow the dash panel to be raised.
4. Remove items to allow access to rear of engine canopy.
5. Empty front storage compartment. Do this after we move you into the shop.
6. Once the work is done, repack all of the areas and lock the compartments.

## WORK TO BE DONE:

A document (Alfa Motor Home Repairs-Mods-Kits) is attached that lists items that we generally offer. Please look over this list and check the items that you would like to have done. All of these items have been done on our coach if you would like to see them. We will need this list before starting the work on your coach.

THANKS FOR YOUR PATIENCE AND UNDERSTANDING. WE WILL DO EVERYTHING WE CAN TO GET YOUR WORK DONE WITH THE LEAST AMOUNT OF INCONVENIENCE.

# **ALFA MOTOR HOME REPAIRS-MODS-KITS**

**BY**

## **DICK & TRISH ALBRITTON**

**5048 HWY. 145**

**CHOUDRANT, LA 71227**

**318-278-1677**

1. **SEALING FOR AIR INFILTRATION** -- Test and seal entire coach for air leaks to make it more comfortable and easier to heat and cool while traveling. Seal storage areas to reduce dust and prevent water from entering those areas while traveling.

**Pre 05'S and some early 05's (all coaches with gas furnace at the rear) - \$650.**

**05's with gas furnace at mid coach - \$550.**

**06's - \$450.**

**07's - \$300**

2. **ELECTRICAL KIT FOR A/C # 2 ALTERNATE POWER** -- This kit allows power to be fed directly to A/C # 2 from a 15 amp. outlet even if it is a GFI while the rest of the coach is powered from the main power supply. This is helpful when the main power supply is less than 50 amp.

**Kit Only - \$80 (shipping included)**

**Installed - \$100.**

3. **MICROWAVE EXHAUST VENT DOOR OPERATOR** -- This is a manual operator which allows the vent door to be opened and closed from the inside of the coach. It is self locking so locking the door from the outside is no longer required.

**Kit Only - \$50 (shipping included)**

**Installed \_ \$75.**

4. **INSULATE ENTRY DOOR** --The interior of the door is completely filled with insulation to make it quieter and to eliminate the hot or cold feeling from it.

**All Coaches - \$75.**

5. **EXHAUST PIPE TURN OUT** -- Modify the existing exhaust pipe to turn out under the left tail light and terminate with a chromed tip.

**Kit Only - \$250 plus shipping.**

**Installed - \$400 .**

6. **READING LIGHT – CURBSIDE** -- A 50 watt, 120 volt adjustable halogen light mounted near galley TV.

**Installed - \$60.**

7. **READING LIGHTS – COUCH** -- A pair of 20 watt halogen 12 volt lights that replaces the existing 12 volt auto dome light. Not applicable to all coaches.

**Installed - \$80.**

8. **GUEST OSCILLATING MARINE FAN** -- A very adjustable 12 volt single speed oscillating fan generally installed in the bed room but can be installed in other areas as desired.

**Installed - \$125.**

9. **ROOFTOP AIR CONDITIONER** -- A 13,500 Btu low profile roof top A/C unit installed generally in the front of the coach between the 2 front fluorescent lights.

**Dometic Penguin low profile with wall thermostat and strip heat - \$1800.**

10. **SOAP DISPENSERS** -- Pump type soap dispensers installed at the kitchen sink and at the bath vanity.

**Vanity - \$40.**

**Kitchen Sink - \$60.**

11. **FRONT CAP LOWER EDGE TRIM** -- A white edge trim installed to give the edge a finished look as well as to protect it from small scrapes.

**Material Only - \$15 plus shipping**

**Installed - \$30**

12. **PRO-FILL BATTERY WATERING SYSTEM** – System is for 6 (6 volt) batteries with 2 watering stations. Makes maintaining batteries a 2 minute job.

**Kit Only - \$175 plus shipping.**

**Installed - \$200.**

13. **WINDSHIELD GUTTER** – Guttering system installed over top of windshield to help eliminate windshield streaking from rain and dew.

**Installed - \$50.**

**14. RAIN GUTTER EXTENSIONS** – Six gutter extensions installed to help reduce black streaking down the side of the coach.

**Installed - \$30.**

**15. FUEL GUARD** – A protector that installs and stores on the fuel filler tube that protects the side of the coach from fuel spills while filling. For pre 06 models.

**Installed - \$20.**

**16. AWNING CENTER SUPPORT** - Supports the center of the awning when retracted to keep it from bending.

**Installed - \$60.**

**17. MISCELLANEOUS PARTS** – We stock various parts for the Alfa such as Grab Bars, LP and CO Detectors, Windshield Wiper Parts, etc. If we don't have it in stock, we can order it for you. Just ask.

**18. LED Tail/Turn Signal Lights** – Two section or 3 section.

**Three section units Installed - \$350**

**Two section units Installed - \$275**

**19. Audible alarm for turn signals.** – Buzzer wired into your turn signals to alert you that the signals are on.

**Installed - \$50**

**20. Slide Motor Conversions to Center Drive.** - Remove end drive motor and convert system to center drive Klauer motor system.

**Total Parts and Labor - \$1000**

**21. Front TV Conversion to LCD.** - Labor and material to remove the front TV and install owner furnished 32" LCD TV.

**03's - \$1000**

**04's thru 07's - \$600**

**22. Basement TV Conversion** – Labor and mounting bracket to convert basement TV to owner furnished 26" LCD TV.

**Labor, Bracket & misc. material - \$250**

**23. Tire Safe Guard Tire Pressure Monitoring System with 10 sensors.**

**Monitor, and 10 non flow thru sensors- \$550.**

**Monitor, 6 flow thru sensors for MH and 4 non flow thru sensors for toad. - \$600.**

**24. Slide seal replacement. – Labor and material to replace the slide out seals with black P-mold seals.**

**2 Slides - \$1000**

**3 Slides - \$1400**

**25. Carpet and Pad replacement. You get the carpet and pad of your choice and we provide the labor and installation material.**

**See Ya's - \$1000**

**Gold's –If steps are done - \$1100**

**Gold's without steps done - \$1000**

**Note: Above prices do not include carpeting rear tip outs.**

**26. REFRIGERATOR CHANGE OUT – Remove existing, gas/electric ref. and install owner furnished residential electric refrigerator. - \$600**

**27. MISCELLANEOUS REPAIRS AND SERVICES – Slide motors, electrical problems, a/c repairs, generator service and repairs, battery replacement, etc.**

**Non warranty items will be billed at \$85 per hour plus parts and materials.**

#### **OUR LOCATION AND DIRECTIONS:**

We are located in north Louisiana just off of I-20 just 20 miles west of Monroe and 75 miles east of Shreveport Louisiana.

On I-20 take exit 93 which is between Ruston and Monroe and go south on Hwy 145 for 3.4 miles to our drive on the right side of the road. The number **(5048)** is on the mail box and is immediately after #4990 so go slow or you will pass it up.

We have hookups with 50 amp electrical and water for your stay here.
